Bath Accessories Bath Faucets

Complete Bathroom Solutions

REVISED
1st. May 2021

onidaibibo
Bath Accessories Bath Faucets

Onida has been one of the leading creators of bath fittings for years with a wealth of good ideas and innovative products. Identifying trends early on and converting them into clever and better products is our philosophy. Onida fittings combine fresh, young design with innovative technology.

Furthermore Onida stands for a high degree of reliability as regards meeting deadlines, durability and professionalism when it comes to after-sales service. Thanks to highly advanced process security, Onida's services are not only operationally dependable but consistent, recognized and reliable. Onida demonstrates operational dependability and reliability thanks to intensive, voluntary controls and external inspections and advanced internal examinations. Indeed, Onida stands for pragmatism and tradition with a development of practically oriented products.

TECHNOLOGY & R&D

All our products are designed and manufactured in-house thus ensuring strict quality control and maintaining the consistency of its product.

DESIGN-RESEARCH & DEVELOPMENT

We will help you select the right style, which meets the specific needs of your project. The CAD/CAM equipped design studio uses the latest softwares to carry out designing functions and define technical specifications.

FOUNDRY

The selection of alloys and the experiences of our moulding technicians are essential to achieve the finished product of great quality. Brass inglots of defined compositions.

MACHINING

Machining is done on CNC lathes ensuring accuracy and consistency.

TOOLING

The combined expertise of our toolmakers and the versatility of our equipment unite this department in the development of prototypes in readiness for product launches.

POLISHING

The preparation of products using automatic controlled systems reduces tedium and concentrates the expertise of the employees on the complex aspects.

PLATING

While complying with the most constraining environmental standards, we achieve to finish our products according to the desires of our customers by using the three layer electroplating technique thus increasing longevity and providing superior finish.

BATH ACCESSORIES

A great bathroom deserves equally good bathroom accessories. Onida's collection caters to people of all ages, where each item is designed to incorporate our basic needs in a practical yet aesthetic manner. These are a great way to organise your bathroom so that the various products that we use are easy to find and use. With the help of accessories, you can beautify your bathroom and make it clutter-free.

GO GREEN !

onida ibibo

Bath Accessories Bath Faucets

Technology that **saves** water

This is a revolutionary technology that lets your taps and shower save upto 80% of water without compromising of flow. Flow Restrictors adjust the flow in both low and high pressure conditions and offer the same voluminous flow every time.

Companies / Buildings aspiring to obtain "GREEN CO / IGBC / LEED / GRIHA / IAPMO" rating systems need to cover all aspects of environment such as energy, water, greenhouse emissions and waste handling. We play a major and an active role on the aspects of water usage management by helping you arrive at water conservation figures directly at the dispensing source of water.

Flow rate options available :
1.4, 2.5, 4.0, 6.0, 8.0, 13 LPM

Flow Restrictor

- The unique flow regulator technology keeps the flow rates constant as per pre-chosen flow rates, independent of the line pressure.
- The unique flow regulator technology keeps the flow rate constant, independent from the line pressure (e.g. at 6 liters/minute when washing your hands or 12 liters/minute when taking a shower). Consequently, the use of flow regulators not only saves a lot of money, but also guarantees an even water distribution.
- Due to controlled flow rates of each water dispensing device the life of the water fittings gets enhanced and risks of water leaking or hose bursting become minimal.
- Final out come is to save & reduce wastage of water from source.

2.5%

FRESH WATER

CONSUMER GUIDELINES

Consumer satisfaction is our basic motto, our objective and our belief with **onida ibibo** products. It is our aim to maintain direct link with ultimate consumers, educating them about product quality, convenience of operation and usage and also preventive maintenance measures required at the consumers end.

The following guidelines, when followed by plumbers & consumers, ensure optimum and trouble-free performance of our products for years to come.

- Supply pipelines should be laid straight and vertical keeping the number of joints to a minimum-keeping the number of bends/elbows etc also a minimum possible to avoid restriction to flow of water.
- Supply lines must have vent pipes for removing air-locking in the water supply lines so as to get smooth flow water through the fittings.
- Flush all pipe lines before starting installation of metal fitting so that dirt and other foreign particles should not spoil the metal fittings.
- All tiling work should be fully completed before installing metal fitting.
- To protect the finished taps and fitting from dirt, stains and other damages, cover them with polypack/cloth after their installation till they are put to actual use.
- Clean the aerator at regular intervals of time for free flow of water from the fitting. Weekly cleaning may be better.
- Please buy **onida ibibo** products from authorized dealers only to ensure genuine quality material.
- To retain the original shine & sparkle, **onida ibibo** fittings needs a certain amount of care.
- Don't use aggressive cleaning agents, since these may spoil the finish of your **onida ibibo** fittings.
- Don't use salt or vinegar based cleaning agents to remove scale or scale related agents.
- Clean the **onida ibibo** fitting with mild soap lather for chrome plated surfaces.
